Alison Byatt – DESP Programme
Manager

Zoe Tobin – DESP Failsafe &
Administration
Coordinator

In May 2015

1. Management of Referrals to the Hospital Eye Service (HES)
2. Management of Patient Data
3. Achieve and Maintain annual screening recall
4. Nursing Home Patients

1. Management of referrals to the Hospital Eye Service (HES)....

If the retina has not been examined, we know that a DES appt. is required. (if the patient is suitable)

This information enables us to ensure the patient record reflects any treatment or additional follow-ups in HES

If the patient has R3s and has been discharged back to DES, we know they require an appt within two months of discharge

2. Patient Data Management....

We knew that....

- Database did not match
- No GP Validation Process
- Diabetic Paediatric Patients
- Diabetic Ante-Natal Patients
- Deceased diabetic Patients

2. Patient Data Management....

3. Achieve and Maintain annual screening recall....

Management of DNA patients

Monitoring of empty slots

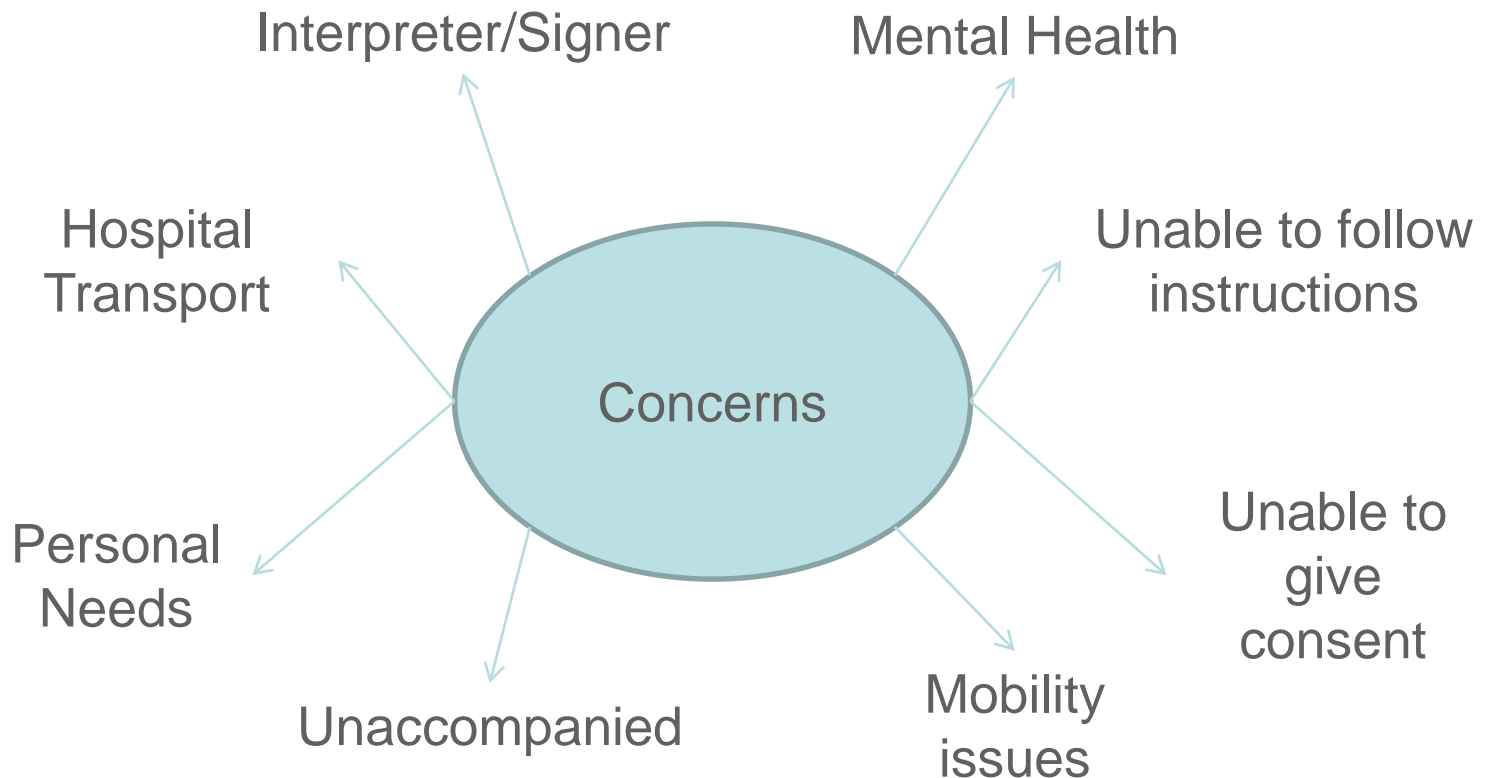

Review of Screening locations

Activity

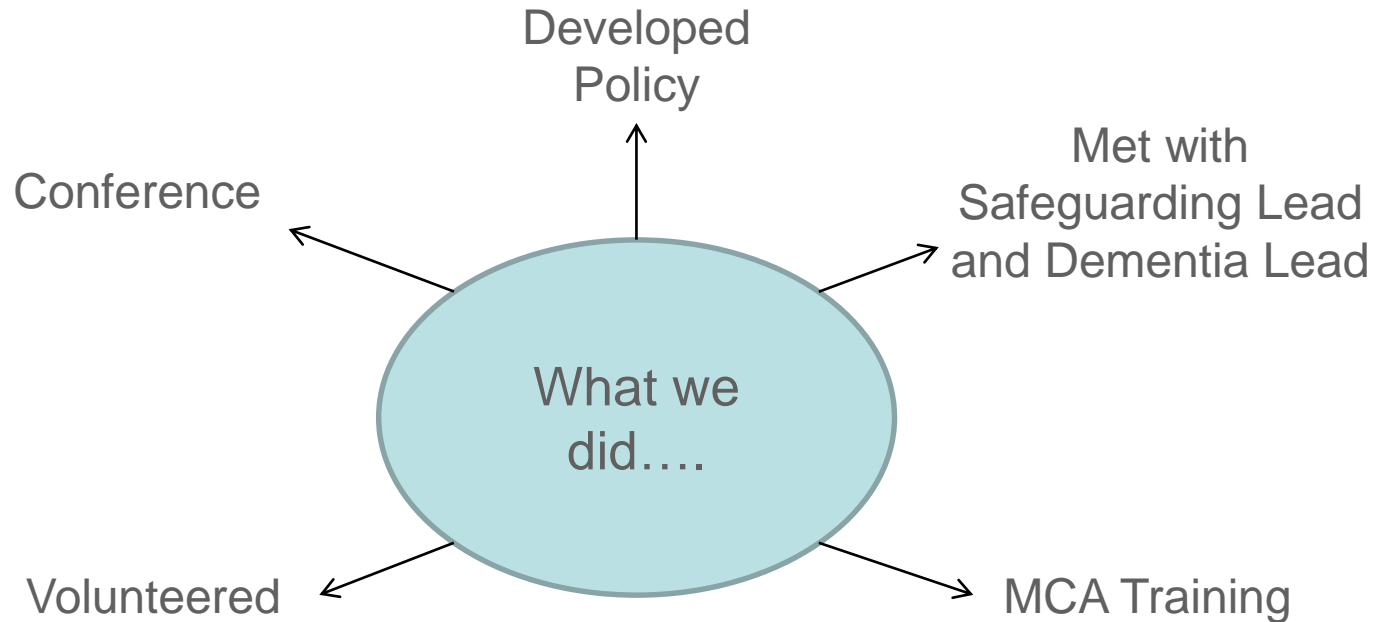

4. Nursing Home Patients....

Case Study

4. Nursing Home Patients....

4. Nursing Home Patients....
